EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christine Orich on April 29, 2005.

The application has been amended as follows:

- 1) In claim 83, line 5: The phrase --substantially all of-- has been inserted before the phrase "the seat section".
- 2) In claim 97, line 5: The phrase --adjoining the head section, substantially all of the seat section being-- has been inserted after the phrase "a seat section".
- 3) In claim 97, line 6: The phrase "the seat section being located adjacent the head section," has been deleted.

2. The following is an examiner's statement of reasons for allowance: The examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a patient support comprising the particular structure of a base frame and an intermediate frame supported by the base frame *in combination with* a deck supported in turn by the intermediate frame, the deck including a head section, a seat section *contiguous* with

Art Unit: 3673

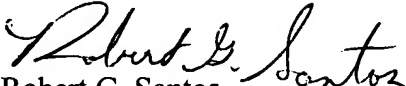

the head section wherein *substantially all* of the seat section being pivotable relative to the intermediate frame to move between first and second positions, a foot section pivotable relative to the seat section, and a mechanism *configured to selectively control movement* of the foot section *relative to the seat section*, as explicitly recited in Applicants' independent claims 83 and 97. With regards to the prior art, Peck '529 is generally considered to disclose the use of a patient support having the distinctive configuration of a base frame, an intermediate frame, and a deck including a head section, a seat section, and a foot section; however, while the seat section of Peck '529 is contiguous with the head section, it is not substantially entirely pivotable relative to the intermediate frame as specifically claimed by Applicants. Since the remaining claims are dependent upon claims 83 and 97 (or were previously allowed over the prior art) and an updated search of the prior art did not yield any other references pertinent to Applicants' claims, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather C. Shackelford can be reached on (571) 272-7049. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
